WAPC's Policy Regarding Commercial Support for WAPC Activities

1. WAPC will solicit and accept support only for projects and activities that are consistent with the Association's mission.
2. WAPC determines how funds provided by commercial supporters for educational activities will be used.
3. The overall planning and responsibility for an educational activity belongs to the Wisconsin Association for Perinatal Care. This includes the selection of speakers, topics, meeting sites, and other important decisions.
4. WAPC will not permit product promotions (advancements) as part of an educational presentation. There are no continuing education credits for exhibitors.
5. WAPC does not provide product endorsements (approvals).
6. WAPC will be vigilant at all times to avoid any real or apparent conflict of interest in accepting donations.
7. All faculty members for continuing education must complete and sign a "faculty disclosure declaration" prior to their presentation. All faculty members participating in any WAPC sponsored programs are expected to disclose to the program audience any real or apparent conflict(s) of interest that may have a direct bearing on the subject matter of the continuing education program. The intent is not to prevent a speaker with a potential conflict of interest from making a presentation, rather it is intended that any potential conflict should be identified openly so that the participants may form their own judgments about the presentation with the full disclosure of the facts.
8. Sponsors will be identified to participants of WAPC activities.
